

Our Social Media Community Guidelines

Facebook Community Guidelines

We welcome the opportunity to hear from you and would like to share some simple 'house rules' to help everybody get the best from the community.

[Read More](#)

LinkedIn Community Guidelines

The following are our community guidelines which we ask you follow to ensure we provide the best experience for the followers of our company pages.

[Read More](#)

Twitter Community Guidelines

We welcome the opportunity to hear from you via @mentions and replies, however, would like to remind you that we work in regulated industries with a unique legal situation in the healthcare space

[Read More](#)

YouTube Community Guidelines

If you believe that you have experienced any medical side effects or reactions from a Novartis product, you should consult your physician, pharmacist or other healthcare professional immediately. You can also report these to us directly using the information found on Novartis.com.

[Read More](#)

Instagram Community Guidelines

We need to ensure discussions occurring on our Instagram page stay on topic and are constructive as we work in a very regulated environment
